

Addendum to Exhibit A

Hillsdale Architectural Control Guidelines

The attachment **Exhibit A** to the Hillsdale Architectural Control Guidelines contains complete directions and guidance to the original paint scheme, by street address, of all houses in the Hillsdale community. Unfortunately, the McCormick exterior paints used throughout are no longer available, and McCormick does not supply any identification of current equivalents. Therefore, the only existing guide is the current color of the house, and of others with the same defined color scheme. (The definitions at the beginning of **Trim**, **Panel**, **Accent** and **Porch** will have to be retained and remain in effect. I will retype them to incorporate in finished document.)

Approval to repaint must therefore be requested from the Architectural Committee Chairperson, via appropriate paint chips, and any painting completed without approval may have to be redone.
